

## 產品特點

Product's characteristic

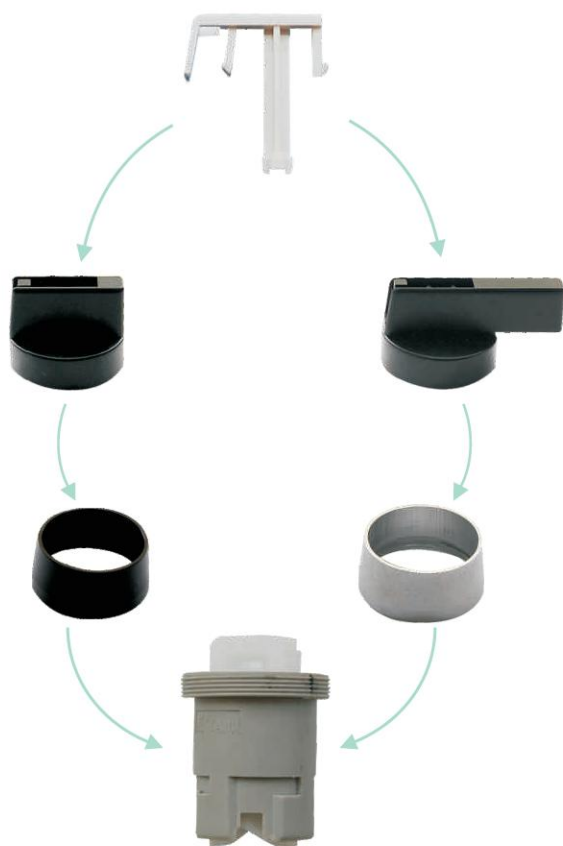

由本公司自主研發，綜合各大品牌的優點

This product is researched and developed by ourselves independently, it has integrated the advantages of many renowned brands, specifically as followings

**1** 區別于其它所有同類產品的連接件，外型美觀，安裝方便。  
Different from other connecting piece of same product, is appearance beautiful and installation simple.

**2** 可以隨時變換長短的旋鈕手柄和不同顏色的花帽。  
Able to change the length of knob handle at anytime and differ tinctoral cap.

**3** 進口優質塑料，高精度銅材，國家權威機構檢測，三大流程，六大標準，層層管控，精益求精。  
We have imported high-quality plastic, high-precision copper. Also our products are inspected by national authoritative institutions, and through three flows and meet six standards. We control every process and make continuous improvement.

**4** 注塑車間高度信息化、自動化、在業內具有領先水平，所有注塑膠機都配置機械手、模溫機，採用中央供料，并通過注塑管理系統對生產計劃、工藝參數及設備狀態等信息進行系統管理。

The plastic injection workshop is highly information-based and automatic, which leads the way in the industry. Of advanced plastic injection machines, all of which are equipped with manipulators and mould temperature controllers. Centralized conveying is adopted and systematic management on information such as production planning, process parameters and equipment status is carried out through the plastic injection management system.
